**GROSS FIXED CAPITAL FORMATION  
BY  
NON-DEPARTMENTAL COMMERCIAL UNDERTAKINGS  
OF  
GOVERNMENT OF GUJARAT  
1990-91 TO 2009-10**

**DIRECTORATE OF ECONOMICS AND STATISTICS  
GOVERNMENT OF GUJARAT  
GANDHINAGAR**

## P R E F A C E

Capital Formation is a basic macro economic aggregate often used to indicate the growth potential of the economy of Nation/ State. At the State level, the estimates of Gross Fixed Capital Formation (GFCF) are yet not available for the economy as a whole due to huge requirements of data from local bodies (panchayats & municipalities), private corporate sector and household sector. This office has taken up the work of preparing the estimates of GFCF in a phased manner. The present report provides the estimates of GFCF by Non-Departmental Commercial Undertakings (NDCUs) of the State Government for the years 1990-91 to 2009-10.

I am thankful to all Boards / Corporations of the State Government for their co-operation in providing the requisite information and annual reports.

It is hoped that the estimates of GFCF by NDCUs would be useful to planners, administrators and research workers.

Suggestions towards improvement of this publication will be appreciated.

Gandhinagar  
February-2012

R. N. Pandya  
Director

## **Major findings on Gross Fixed Capital Formation by Non-Departmental Commercial Undertakings of Government of Gujarat 1990-91 to 2009-10**

.....

- Gross Fixed Capital Formation by NDCUs has increased from Rs. 872 Crores in 1990-91 to RS. 8711 crores in the year 2009-10.
- The annual change over previous year ranges between (-)18.8 percent to 87.7 percent.
- The average rate of increase during the years 1990-91 to 2009-10 works out to be 16 percent.
- Amongst all the industry groups, 'Electricity, Gas and Water Supply' has represented highest share i.e. more than 65 percent. Major share under this industry group comes from NDCUs viz. Gujarat State Electricity Corporation Ltd., Gujarat State Energy Transmission Corporation Ltd. and Sardar Sarovar Narmada Nigam Ltd.
- Out of two components 'Construction' and 'Machinery & Equipments' (including transport vehicles) the share of 'Construction' remains on higher side than that of 'Machinery & Equipments' in most of the years.
- Rise in the share of construction is mainly due to rise in capital formation under the category 'other construction', which includes expenditure on parking facilities, dams, canals, electricity transmission lines, telephone & telegraph lines, drainage etc..

# **Gross Fixed Capital Formation by Non-Departmental Commercial Undertakings of Government of Gujarat 1990-91 to 2009-10**

---

## **1 Introduction:**

1.1 Capital being one of the four factors (viz. Land, Labour, Capital & Entrepreneurship) of production, plays an important role in the production process. Capital Formation is thus, crucial for economic development.

1.2 Keeping in view the recommendations of the Regional Accounts Committee set up by the Government of India, attempts are being made to prepare the estimates of Gross Fixed Capital Formation (GFCF) for the various components of public sector. As a part of this, the estimates of GFCF by Non-Departmental Commercial Undertakings (NDCUs) of the State Government by industry of use and by type of assets for the years 1990-91 to 2008-09 have already been published. The present report provides the similar estimates for the year 2009-10 alongwith the estimates for the previous years 1990-91 to 2008-09

1.3 The estimates of GFCF by type of assets i.e. buildings, other construction, plant & machinery and transport equipments are presented in Statement-1 of annexure. Statements 2.1 to 2.20 gives two way classification of GFCF i.e. by type of industry of use and by type of assets for each of the years 1990-91 to 2009-10 .

## **2. Concept, Scope and Coverage :**

2.1 Domestic Capital Formation is defined as that part of Country/State's current output and imports which is not consumed or exported during the accounting period but is set aside as addition to its stock of capital goods. Total Capital Formation can be broadly classified into Fixed Capital Formation and Change in Stocks of raw materials, semi-finished and finished goods.

2.2 The estimates of Gross Fixed Capital Formation (GFCF) presented here pertain to Non-Departmental Commercial Undertakings (also referred to as Non Departmental

Enterprises) comprises of (i) Government companies in which not less than 51 percent of the paid-up share capital is held by the Central Government or State Government or partly by the Central Government and partly by one or more State Government and subsidiaries of Government companies; and (ii) statutory corporations set up under special enactments of Parliament or State Legislature. The NDCUs differ from the DCUs in respect of holding and managing the financial assets and liabilities as well as the tangible assets involved in their business. These enterprises have separate Boards of Directors and present profit and loss accounts and balance sheets as in the case of private corporate sector.

2.3 For preparing the estimates of GFCF by type of assets, annual reports / accounts of all concerned Board / Corporations of the State for the years 1990-91 to 2009-10 have been obtained directly and schedules of fixed assets given in the report have been analysed. For preparing the estimates of GFCF by type of industry of use, the NDCUs have been classified firstly into two broad groups, viz (a) Financial undertakings and (b) Non-Financial undertakings. The Financial NDCUs have been classified under the 'Banking and Insurance' industry group, while Non-Financial NDCUs have been classified under different industry groups on the basis of their major economic activity. However, few Board / Corporations (list given in Statement-4) which are involved in activities relating to infrastructure development and do not have pure commercial activities are kept outside the purview of NDCUs in this report. However, these NDCUs have been covered under the type of institutions 'local bodies'. The list of NDCUs (Board/Corporations) alongwith GFCF during the years 2007-08, 2008-09 and 2009-10 is given in Statement - 3.

2.4 Data on the expenditure of gross fixed assets as at the end of the current and previous financial year are available in the schedule of fixed assets attached to the balance sheet of the enterprise. The schedule of fixed assets provide data on fixed assets by type, such as building, plant and machinery, furniture and fixture, office equipment, transport equipment, other construction, capital works in progress,

expenditure during construction etc. In many cases of capital works, the break-up of the type of work in progress is not given and all the un-finished works are shown under the head 'capital work in progress.' Similarly, before coming into operation a company presents its accounts under the head 'expenditure during construction'. The expenditure under this head is to be transferred to the balance sheet and partly written off in the profit and loss account and added to fixed assets over a period of time. On examination of the accounts of number of such enterprises, it has been observed that in most of the cases the entire expenditure is added to the fixed assets. Although, there is a time-lag between the incurring of such expenditure and their being transferred to fixed assets in the accounts of the enterprises, these are assigned to the fixed assets in the year in which the expenditure incurred. Capital work in progress, expenditure during construction and net purchase of secondhand physical assets during the year are to be treated as capital formation and appropriately allocated to the various categories of fixed assets. The gross fixed capital formation during the year has been obtained as addition in assets net of sales/ disposals. The estimates of GFCF by industry of use and by type of assets so prepared for the years 1990-91 to 2009-10 are at current prices.

### **3 Analysis:**

3.1 A brief analysis of estimates of GFCF by NDCUs are given in the following paragraphs.

#### **GFCF at aggregate level:**

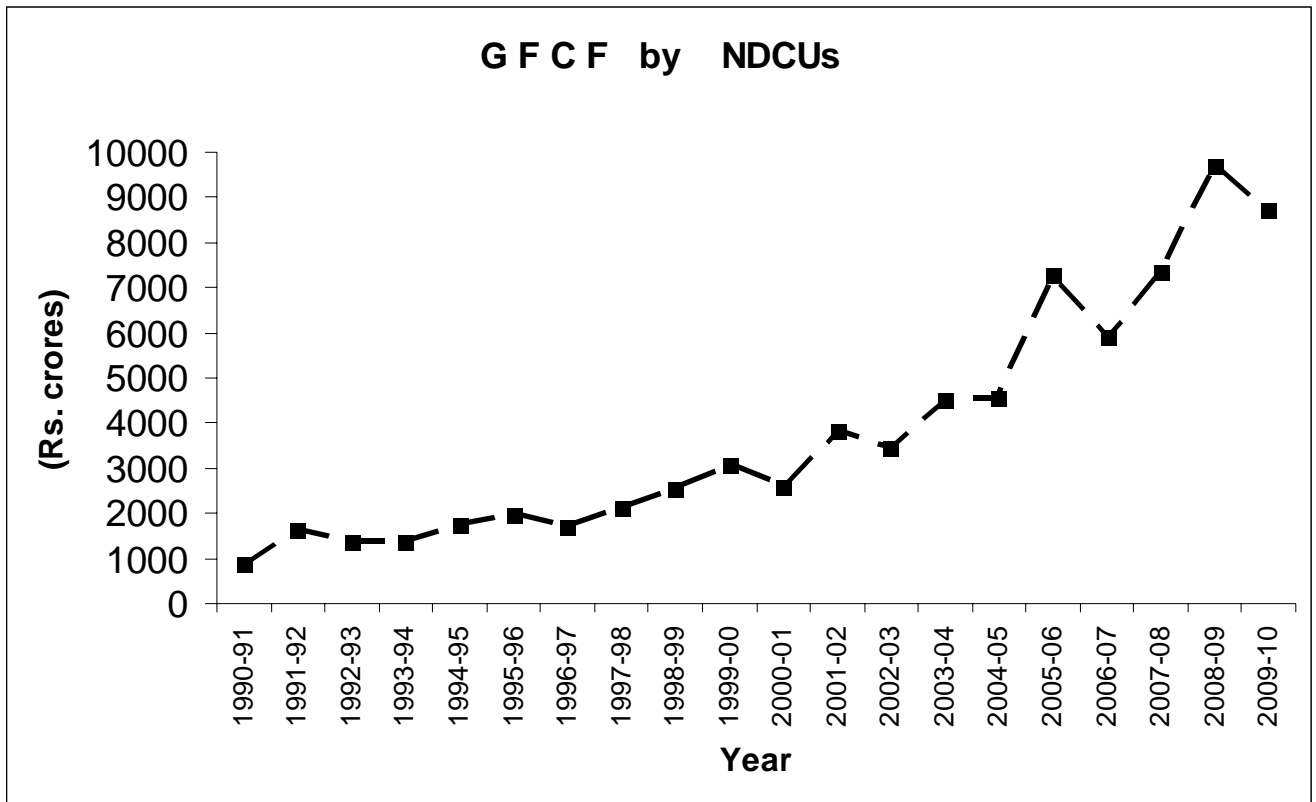

3.2 The estimates of Gross Fixed Capital Formation and annual change over previous year are given in the Table-1.

Table-1

Annual change in GFCF.

Year	GFCF (Rs. Crores)	Annual change in GFCF (%)
1	2	3
1990-91	872	-
1991-92	1637	87.7
1992-93	1357	-17.1
1993-94	1346	-0.9
1994-95	1724	28.1
1995-96	1959	13.7
1996-97	1708	-12.8
1997-98	2109	23.4
1998-99	2543	20.6
1999-00	3068	20.7
2000-01	2583	-15.8
2001-02	3823	48.0
2002-03	3454	-9.7
2003-04	4507	30.5
2004-05	4560	1.2
2005-06	7266	59.3
2006-07	5897	-18.8
2007-08	7357	24.8
2008-09	9683	31.6
2009-10	8711	-10.0

3.3 It is seen from the table that the Gross Fixed Capital Formation by the NDCUs amounting to RS. 8711 crores in the year 2009-10 as against Rs.9683 crores in 2008-09 . The annual change over previous year ranges between 87.7 percent in the year 1991-92 to (-)18.8 percent in the year 2006-07. The average rate of increase during the years 1990-91 to 2009-10 works out to be 16 percent.

**GFCF by Industry of use:**

3.4 The estimates of GFCF by industry of use i.e. by different sectors of the economy to which NDCUs belong alongwith the share for the years 1990-91 to 2009-10 are given in Table - 2.

Table – 2

		(100.00)	(100.00)	(100.00)	(100.00)

Note : Figures in bracket indicate percentage to total.

3.5 It is observed that amongst all the industry groups, ‘Electricity, Gas and Water Supply’ has represented the highest share i.e. more than 65 percent. It may be mentioned here that this major share under this industry group comes from the NDCUs viz. Gujarat State Electricity Corporation Ltd., Gujarat State Energy Transmission Corporation Ltd. and Sardar Sarovar Narmada Nigam Ltd..

**GFCF by type of assets:**

3.6 The estimates of GFCF by broad categories of assets i.e. Construction, Machinery and Equipments are given in Table - 3.

## GFCF by type of assets:

3.6 The estimates of GFCF by broad categories of assets i.e. Construction, Machinery and Equipments are given in Table – 3 below.

Table – 3

## GFCF by type of assets

3.7 It is seen that out of the two components 'Construction' and 'Machinery & Equipments' (including transport vehicles) the share of 'Construction' remains on higher side than that of Machinery & Equipments in almost all the years except 1990-91 and 1992-93.

3.8 Capital Formation under the component 'Construction' consists of two categories namely 'construction of buildings' and 'other construction'. Statement-1 in the annexure reveals that rise in the share of construction is mainly due to rise in capital formation under the category 'other construction'. which includes expenditure on parking facilities, dams, canals, electricity transmission lines, telephone & telegraph lines, drainage etc..
